POWER FORWARD DUPAGE

SAFETY COMMITTEE NEWS BULLETIN IN PARTNERSHIP WITH CONSTRUCTION SAFETY COUNCIL

Stay Safe - Watch a Webinar

By: Robert Lahey, Construction Safety Council

When time is tight and calendars are in conflict, opportunities for safety training are limited. And when you cannot attend in person, then a computer-based option is a user-friendly alternative.

PowerForward DuPage and the Construction Safety Council are pleased to offer a series of webinars that are available to signatory contractors and members of IBEW Local 701. Each session was recorded earlier this year as a commitment to **Stand Up for Safety and Health** - a nationwide campaign that provides basic hazard awareness-level training in a one-hour video format.

The presenters are talented subject matter experts who are knowledgeable about the targeted topic of each session. They were selected by the OSHA Training Institute (OTI) Education Center network, which is a partnership among 26 non-profit organizations authorized to deliver occupational safety and health training for all levels of workers.

The Construction Safety Council, in collaboration with Northern Illinois University, is one of these Education Centers. Together, they operate the National Safety Education Center – the only such cooperative located in the State of Illinois, which is also approved to deliver training elsewhere throughout the OSHA Chicago Region: Indiana, Wisconsin, Michigan, Ohio, and Minnesota.

The **Stand Up for Safety and Health** campaign includes four webinars now available for viewing:

Personal Fall Arrest Systems

Trench & Excavation Safety

Lockout/ Tagout

Stuck-By/Caught-In or Caught-Between Hazards

CLICK ABOVE to watch each webinar wherever - and whenever - it is convenient. And for even greater impact, share these 60-minute sessions with co-workers as excellent opportunities to create a safer work environment for all.

Robert Lahey is the President & CEO of the Chicagoland Construction Safety Council located in Hillside, Illinois. For more than 30 years, the Council has delivered programs and services in support of its commitment to Safe Workers – Safer Futures.
